

LED TUBE

48VDC for Emergency Lights system

Model : P69-4-48-D

Emergency LED tube light fixtures are more reliable than standard fluorescent lights and require less maintenance

Unique safety design of mini pins prevents accidental use of standard fluorescent tubes in LED fixtures

Dimension	4' / 120cm
Base	T8
Input Voltage	48VDC
Input Frequency	DC
Power	18 WATTS
CRI	80
Power Factor	
Angle	120°
Life	50,000HRS
Protection	SURGE
Net Weight	0.445KG
Dimmable	YES
Color	COOL WHITE 55-6000K° NATURAL WHITE 4000-4500k° WARM WHITE 3000—3500 K°
Warranty	5 YEARS

CERTIFICAT :
